OUR COMPANIES

CONSTRUCTION INDUSTRY - PRIVATE PROJECTS

Company of activity:
Alinian Construction

The Company specializes in the restoration of historical monuments, for more than forty years in the USA. It is an expert partner providing turn-key services (from study to licensing and subsequently in the construction of the project). Nowadays the company has a presence in the private sector projects in Greece as well, through Alinian Construction Hellas.

CONSTRUCTION INDUSTRY - PUBLIC WORKS

Company of activity:

Maycon Hellas Construction S.A.

Holder of a 5th Class contractor's degree. The company undertakes and executes public works emphasizing on the horizontal – vertical road markings (such as National and Provincial Road Networks, Airports, national roads etc). Since 2002, the Company has expanded throughout Greece as well as in the market of the Balkans and in the wider area of Europe, through the establishment of subsidiary companies. The Maycon Group is well equipped with state-of-the-art machinery, such as road marking vehicles, water blasting, pellet blasting, steel blasting and equipment for removing rubber and old markings from existing road networks.

PRIMARY SECTOR

Company of activity:

Z.O.H.-ZOOTROFIKOS OMILOS IRAKLEIOU

Compound feed production industry, cheese factory, collection, processing & distribution of milk

The purpose of Z.O.H. is the production of high quality cheese products. In order to ensure the best raw materials, he proceeded, in collaboration with veterinarians, to the production and distribution of specially designed feed, which activate the productive potential of the animals to the maximum extent. The result of this strategy is to improve the quality of livestock products and reduce their production costs.

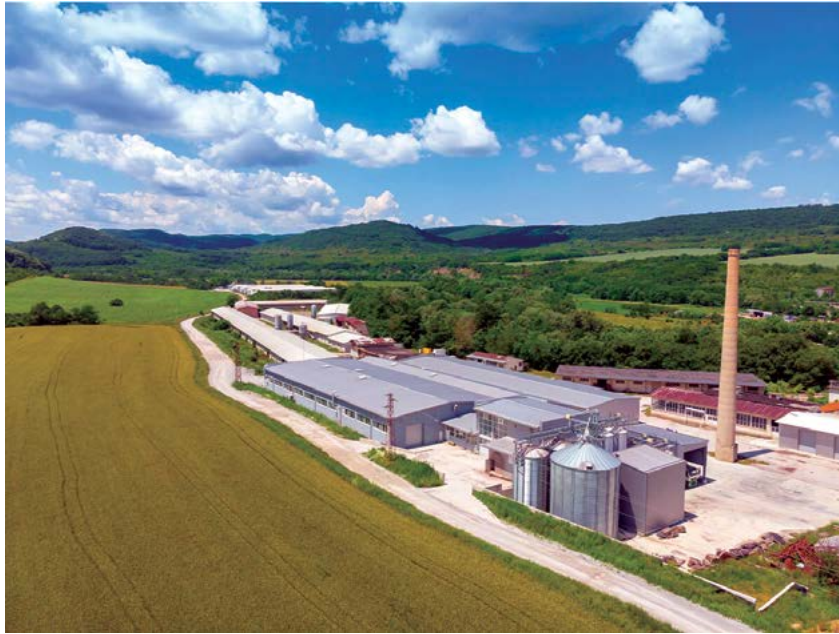

PRIMARY SECTOR

Company of activity:

MrEgg

MrEgg company was founded in 2013 in the city of Debelets, Bulgaria, with the main activity of producing eggs from hens of the French Novogen breed, which are considered to be extremely productive. The eggs are checked, selected and packed according to European standards to ensure a guaranteed quality. Its production is based on complex mechanical equipment that has been designed, implemented and maintained with the systems of the OMAZ company, a leader in its field. The animal feeds are produced in-house with the most sophisticated and automated systems to ensure the best quality of its eggs.

MANUFACTURE

Company of activity:
Sercofoods S.A.

Having more than 40 years of experience in tomato processing and through research and development programs, it continues with even greater dedication aiming to offer the consumer tomato products with freshness and aroma similar to the moment of harvest! SERCO FOODS' facilities and production process are ISO 22000:2005 certified since 2015 and use the latest technology to achieve excellent quality without preservatives in the finished products.
